📍 Austin, Tx

I am a Product Designer born in Lithuania and currently based in Austin, Texas. I've been designing digital experiences for consumer and enterprise products for over twelve years. I worked for digital and advertising agencies, Financial Services and designed software for Nokia Software and Dell. I develop concepts and design directions, conduct research, create design flows, patterns, contribute to the design system. Create interactive prototypes for user testing. Collaborate with engineers, other designers, stakeholders.

Professional Experience
