📍 Austin, Tx

Product designer with 10+ years of experience shaping digital experiences for both enterprise and consumer products. Specialized in designing complex systems for technical audiences, including cybersecurity, finance, and IT. Formerly with Nokia Labs, Dell Technologies, and Charles Schwab. Passionate about building scalable design systems and improving workflows through thoughtful, intuitive interfaces.

Professional Experience

Nucleus Security • Sr. Product Designer | Remote May. 2022 - Present

- First design hire at early-stage cybersecurity company
- Led end-to-end redesign of the core application to improve usability and scalability
- Introduced a modular design system and established long-term UX strategy
- Partnered with engineering and leadership to shape the product roadmap

Charles Schwab • Sr. Product Designer | Austin, Tx Oct. 2020 - May. 2022

- Designed and launched key trading platform features during Schwab + TD Ameritrade integration
- Delivered responsive experiences across web, iOS, and Android
- Collaborated cross-functionally with research, PM, and engineering

Dell Technologies • Sr. Product Designer | Austin, Tx Apr. 2019 - Mar. 2020

- Designed customer support software used by global enterprise teams
- Contributed to the evolution of Dell's internal design system
- Facilitated design sprints to drive UX improvements

Nokia Software • Sr. Product Designer | Austin, Tx Aug. 2017 - Jul. 2019

- Built experimental tools and demos for internal innovation teams
- Focused on digital transformation and cloud-native solutions
- Delivered high-fidelity prototypes to support new product initiatives
