

Tatjana Volbeke

Product Designer simplifying complex systems into intuitive, scalable experiences.

WORK EXPERIENCE

Senior Product Designer - Nucleus Security

May 2022 - Aug 2025 | Remote (Austin, TX)

- Led the redesign of the core B2B cybersecurity platform, improving workflows for vulnerability and CVE triage, asset management, automation rules, and reporting.
- Built a scalable design system for internal tools, establishing consistent patterns across future product development.
- Defined foundational UX strategy and design principles, embedding user research into the product process.
- Partnered closely with engineering and leadership to shape the product roadmap, balancing usability with complex security requirements.

Senior Product Designer - Charles Schwab

Oct 2020 - May 2022 | Remote (Austin, TX)

- Designed and launched major trading platform features during the Schwab + TD Ameritrade integration.
- Delivered responsive, cross-platform experiences (web, iOS, Android) simplifying complex financial workflows.
- Collaborated across research, product, compliance, and engineering to drive user-centered outcomes.

Senior Product Designer - Dell Technologies

Apr 2019 - Mar 2020 | Austin, TX

- Designed customer support software used globally by enterprise teams.
- Advanced Dell’s internal design system, unifying UI components across multiple products.
- Led design sprints to identify and solve key UX pain points.

Senior Product Designer - Nokia Software

Aug 2017 - Jul 2019 | Austin, TX

- Created prototypes and experimental tools for the Innovation Department, supporting major telco clients.
- Enhanced enterprise Service Management and Device Management platforms with improved usability and visual consistency.
- Delivered high-fidelity Figma prototypes and insights directly influencing product strategy.
